

Dear All,

Having listened to your teachers, parents/carers and of course you, we have now planned forward for the next half term. It will bring more structure to how the Academy will operate until we can return to school.

The following timetables are for you to follow until half term. They are weekly timetables not the usual 2 weekly timetables you are used to. You will have work set for 3 subjects (4 for Year 10) each day. You are also required to complete Hegarty Maths for 30 minutes each day and read a book or newspaper of your choice for 3 minutes every day (not compulsory Yr10 but encouraged). Mrs Safdar has been sending out links to free online books and materials you can read.

You will also be required to attend tutor time twice a week and watch/join one senior leader assembly and one head of year assembly per week. You will also be set a form challenge every Wednesday to complete.

You will notice a series of links to the internet on your timetable. This is a flexible menu for you to explore, we want you to experience as many different learning experiences as possible. We expect you to explore one link per day. You also have a compulsory link to the BBC Bitesize site; you can choose which subject you want to view. This site is an excellent resource and we expect you to complete one lesson per day.

So that you have a steady stream of work and to help you organise your time, your teachers will set the work for you to complete on the day the subject is on your timetable. You will have until 10am the next day to submit your work completed from the previous day. This will allow your teachers to mark it and send you feedback regularly. It will also allow us to track your work completion and support you if you are not submitting work.

If your teachers want to teach you something live or have a discussion with you and some of your class about the work you have submitted they will send you an invite to either join a live lesson on Microsoft Teams or have a discussion through a team meeting or SKYPE. This will only happen for subjects in the timetabled lesson time which is outlined in the communication timetable that matches the subjects on your full timetable. Please make sure you join these live interaction points with staff.

If you do not have a live interaction point, then you will have more flexibility to complete work but remember it must be in the next day by 10am. Year 10, you will have a slightly different structure for your BTEC coursework completion points, your teachers will liaise with you individually. During this term you will also complete assessments, so make sure you always complete your work to the best of your ability.

Your pastoral interaction with your Head of Year will continue as before Easter and this will be supported by the senior leadership team particularly if you are not completing work. We will also continue to praise good work and showcase this as much as possible through our assemblies and social media.

If you require any support or have any questions, then please contact us by ringing the Academy or emailing us at Remotesupport@hyndburnacademy.org.uk.

Finally, can I just take this opportunity to thank you and your parents / carers for all of your support so far. It has been one big Team HYA effort and shows what a great community school we are. I am very proud of you all.

Miss Palmer

COMMUNICATION

If your teacher is going to teach a live lesson or conduct a feedback group call it will happen in the following periods.

They will not necessarily take the whole period, but you must be available if needed. Your teacher will let you know if you are required through SMH and Teams.

- Period 1 9.20am - 10.20am
- Period 2 10.20am - 11.20am
- Period 3 11.20am - 12.20pm
- Year 10 Period 4 12.20pm - 1.20pm
